

Great Wave

The furniture of each piece in the Great Wave Set displays the renowned Tomoe motif used frequently for family crests and shrine decoration. The Tsuba, Fuchi, & Kashira are made of blackened iron and feature the Tomoe crest (Mon). The blades are hand-forged from T10 high-carbon steel and are differentially tempered using traditional claying methods. The temper line (Hamon) is evident and prominent. Each piece has a deeply lacquered black Saya with a one-piece brass Habaki construction. Real ray skin (Same) is used on the Tsuka, and the Tsuka-Ito and Sageo are made of premium woven Japanese black cotton. The Katana and Wakizashi are constructed with a long (o) Kissaki and are well suited for cutting exercises (Tameshigiri). The handle on the Tanto is an attractive ribbed buffalo horn.
